DATA ON TOURISM**

YEAR 2013

FOREWORD

Handbook of Statistical Data on Tourism

Vol. 33

2013

This report is a yearly publication of the Ministry of Tourism & Leisure. It is designed to present, in a concise manner, information pertaining to the tourism industry. Relevant tabulations obtained from the Survey of Inbound Tourism have been included in this report to provide supplementary data on the profile of tourists visiting Mauritius.

Prior to 1994, data on passenger traffic has been compiled from a 10% sample of embarkation and disembarkation cards filled in by passengers. However, as from January 1994, it is based on movements of all passengers including travellers of cruise ships. Thus disaggregated data for 1994 onwards may not be strictly comparable to previous series.

It is hoped that the data will meet the needs and requirements of stakeholders and all those who take an interest in the evolution of tourism in Mauritius. The cooperation of Statistics Mauritius, the Bank of Mauritius, the Civil Aviation Department, the Passport and Immigration Office and all hotels is acknowledged.

(Mrs. P. Roy)

Permanent Secretary

SUMMARY: MAIN TOURISM STATISTICS

2013

- 993,106 tourist arrivals were recorded during the year.

- The principal tourist markets were France (24.6%), Reunion (14.4%) and United Kingdom (9.9%).

- The average length of stay of a tourist was 10.9 nights.

- Gross earnings from tourism amounted to Rs 40,557 million.

- There were 107 hotels with a total room capacity of 12,376 and a total bed capacity of 25,105.

- Total room and total bed occupancy rates of all hotels were 63% and 55% respectively.

DEFINITION AND NOTES

Tourist

- a) Prior to 1964, a tourist was defined as a non-resident staying in Mauritius for more than 24 hours but less than 6 months.
- b) From 1964 to 2008, a tourist was defined as a non-resident staying in Mauritius for more than 24 hours but less than a year and was not involved in any gainful occupation.
- c) As from 2009, a tourist is defined as a non-resident staying overnight but less than a year, and who has no employer-employee relationship with a resident.

The figures for the three periods are nevertheless comparable because of the small number of tourists staying for more than 6 months.

Visitor

Visitors include the following:

- a) Tourists as defined above and
- b) Excursionists or same day visitors, i.e. non-residents, other than those who do not leave the airport/ships, who depart on the same day they arrived.

Tourist nights

Prior to 2010, tables on tourist nights show the number of nights spent by tourists who were present in the country during the period under review. Thus the number of tourist nights for 2009 includes:

- a) nights spent during 2009 by tourists who arrived prior to 1st January 2009; and
- b) nights spent during 2009 by tourists who arrived during the same year.

However, nights spent after 31st December 2009 by tourists who arrived in 2009 are excluded.

As from year 2010, the number of tourist nights for year Y includes:

- a) nights spent during year Y by tourists who arrived in year Y; and
- b) nights spent during the following year (Y+1) by tourists who arrived in year Y.

Seasonal index

The seasonal index is the ratio of monthly tourist arrivals to monthly average number of tourist arrivals for the year under review.

$$\text{Seasonal Index} = \frac{\text{Monthly tourist arrivals} \times 100}{\text{Monthly average tourist arrivals for the year}}$$

Occupancy rate

The room/bed occupancy rate is the ratio of room/bed nights rented to the total number of room/bed nights available.

$$= \frac{\text{Total number of room/bed nights rented} \times 100}{\text{Total number of room/bed nights available}}$$

Large hotels

Large hotels are well established beach hotels of over 80 rooms
